

## Parking at Munich Airport General terms and conditions

Dear guests,

In this document and in our brochures "Parking at the airport" and "Airport Information" we are pleased to provide you with detailed information on parking and other services. Please note the following:

### Entering the parking facilities

To enter the parking facility, scan a credit card that is valid for the duration of your planned stay or take a parking ticket at the barrier. Please keep the ticket in a safe place.

By entering the gated parking facility you are agreeing to a contract with Flughafen München GmbH, Nordallee 25, 85356 München Flughafen [referred to below as "FMG"].

The current published parking charges, the German Road Traffic Regulations [StVO] and the Airport Rules and Regulations [FBO] apply.

The FMG parking office in Terminal 1, Central Area, is staffed at all times. At the payment machines and entrance/exit barriers you can also speak to the parking office staff via intercom. Information on parking is also available by calling the service number:  
Tel. 089 975 222.

The maximum permitted stay in the FMG parking facilities is three months. In the parking garages and underground parking facilities, vehicles with a height of up to 2.00 meters are permitted. In case you require a longer stay or wish to park a special or oversized vehicle (or a trailer, for example), please call the parking service number.

Some parking areas are monitored via closed-circuit television. FMG does not perform monitoring or safekeeping of your vehicle or contents. Never leave valuables in your vehicle. Valuables can be deposited for safekeeping at the Service Center. For further details, please refer to our brochures.

The specially marked disabled parking spaces are intended solely for use by disabled persons with official identity cards with the codes aG, BI or H. Please display your ID card visibly in your vehicle. Otherwise you will be fined for a parking offence.

Parking at Munich Airport – May 2017

Please park your vehicle within a marked space and ensure that unauthorized persons cannot enter or use it. Close all windows and lock the doors. Otherwise the vehicle may be secured or towed at your expense.

Be sure to note your parking location.

If it is clear that a vehicle parked longer than the maximum period is abandoned, FMG can remove and sell the vehicle at the owner's expense.

### Payment and exit

If you used a credit card to enter the parking facility, please insert the same card at the exit barrier to pay the parking fees.

Otherwise, go first to the payment machine. Insert your ticket and pay the amount due using cash, a credit card or debit card [ec card]. The ticket will then be released and will open the exit barrier.

The released ticket also serves as your invoice/receipt. Please use the ticket to exit the parking facility without delay.

When entering with a pre-paid advance booking, the QR code must be used to gain access. If the QR code is not used, the regular parking charges are payable.

Disabled persons with an ID card with the code aG, BI or H will receive a 50% discount on the parking fees at the parking office or by pressing the call button on the payment machine.

The loss of the parking ticket or the credit card used to enter the parking facility must be reported to the Parking Office in Terminal 1, Central Area. A processing fee applies. You will be charged an additional parking fee equal to the amount due for a full day unless you can prove that your stay was shorter or FMG can demonstrate a longer stay [e.g. on the basis of your flight details].

The release of the vehicle may be subject to your furnishing proof of ownership or authorization.
